

CLUSTER: ELECTRONICA

EVENT: TECHNAHOLIC

ROUND 1: ARE YOU THE BEST SEEKER ?

This round consists of questions that are based on pen & paper method. It consists of 2 types of questions –simple & tricky questions+1 booster question. Among total questions, half of the questions are simple& half of the questions are trickyAll the questions are shuffled and participants have to identify those tricky questions. After finding all the answers, a hint will be given along with that BOOSTER question. Based on the hint, participants have to relate tricky questions & answers to find the answer for booster question.

ROUND 2 : HOT TRACKS

In this round, Out of the selected teams, each will be asked to choose a card which contains the name of another team. The selector has to ask the given set of questions to the selected team. If answered, they will be awarded full marks (which can be determined) or else, the selector will be given a chance and if answered they will be awarded half the marks. Both dosen't answered then no marks will be awarded.

ROUND 3 : VER TECH WARZ

This round is the most interesting round. It is like a game, consists of two levels. If a team finished a level they will be opening a lock by acquiring stars, they will enter into level 2. How fast a team finishes level 1 can have more time to spend in level 2.

1st level:

In this level, we will provide input components for the circuit and also the output waveforms. We will display the whole circuit for a short duration. Depending upon at what time each team finish their target they will be awarded certain number of stars. Based on these stars points will be awarded to open the 2nd level.

(note : for 1st years we will give questions on crosswords.They have to solve it

2nd level:

In this level they have to connect a person and a instrument or thing or electronic parts. The person and the thing are related to concept that is asked. Clues given based on question's difficulty.

Note(3rd round scores will be considered for choosing winner
